What is Community Supported Agriculture (CSA)?

It's a way for community members to support their local farmers by purchasing a seasonal share of locally grown crops. By purchasing a CSA subscription, you are committing to support local farms and local businesses. We are offering a weekly share (bouquet) for the month of August. Having the commitment of our CSA subscribers allows us to better manage our harvest, and to ensure that the freshest flowers can be enjoyed by our community.

How it Works...

Each week, we will assemble special bouquets for CSA subscribers to pick-up on Thursdays (August 4, 11, 18, 25) at Molzon Landscape Nursery. Bouquets will be filled with fresh flowers grown at Molzon's. Because we only use flowers grown on our farm, the weekly bouquets will vary depending on what's blooming each week. Throughout your subscription, you can expect to see sunflowers, gladiolus, dahlias, zinnias and cosmos.

How to reserve your membership
